***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-8 are rejected under 35 U.S.C. 102(b) as being anticipated by Mohoney, U. S. Patent 2,869,720.

3. Mohoney teaches display apparatus comprising a column 32 having a first end 12 and a second end 13, a strap 33-35 extending between the first and second end of the column. The strap portion 34 extends from the end 12 and strap portion 22 is adapted to engage end 13 using tabs 19,20 inserted into the slots 21,22. When the tabs of the strap are inserted in the slots an aperture is formed therebetween. The column has a first side panel C, second side panel E, and major panel D.

4. Since the applicant does not positively recite the plush item in combination with the apparatus, claims 2-8 are anticipated by Mohoney.

5. Claims 12-26 are rejected under 35 U.S.C. 102(b) as being anticipated by DePriest, U. S. Patent 3,346,892.

6. With respect to claim 12, 17-19, and 26, DePriest teaches a pillow 26 and pillow holder 28. The pillow holder comprises a strap 28 having a rear portion corresponding to the column and a front portion extending from the bottom of the rear portion and slidable connected to an upper portion of the rear portion at eye 32. The strap can be adjusted to increase and decrease the friction on the pillow.

Art Unit: 3611

7. With respect to claim 13-16, 20-23, the pillow extends from opposite sides of the straps.

8. With respect to claim 24-25, the side surface of the strap corresponds to the side panels.

### ***Response to Arguments***

9. Applicant's arguments with respect to claims 1, 12, and 26 have been considered but are moot in view of the new ground(s) of rejection.

### ***Conclusion***

10. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The following U. S. Patents are cited to show holder: 2,983,310; 5,070,558; 5,718,010; 4,4131,198, 6038,720.

11. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 3611

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
